INTRODUCTION

This annual report presents financial and statistical information on the operations of REA telephone borrowers individually and as a group. The report is based on financial and statistical statements submitted by 811 borrowers. However, since some borrowers did not report all items, the number of borrowers included is not the same for all tables. The data in the report are on a calendar year basis to coincide with the accounting period of practically all borrowers.

As of December 31, 1968, there were 849 active borrowers, of which 845 had received advances of

funds. Cooperatives totaled 229, or 27.0 percent of the active borrowers, and commercial companies 620, or 73.0 percent.

Data for 18 former borrowers which have repaid their loans in full are not included in the summary tables unless specifically indicated. These borrowers are listed at the end of the report.

The information submitted by the borrowers is subject to possible revision as a result of future audits and adjustments.

EXPLANATION OF ITEMS IN THE REPORT

Changes in the Report

TOTAL NET WORTH — This new item includes "Capital Stock, Membership and Capital Certificates," and "Surplus or Margins and Capital Credits."

The item "CUTOVER TO DIAL WITH REA FINANCING" has been deleted from the report.

PRINCIPAL DUE AND PAID — This is the cumulative amount of principal repaid on REA loans that has become due. It does not include advance payments made on loans which become a "cushion of credit" for the borrower. These are shown in the item "Advance Payments." Principal amounts delinquent more than 30 days are shown by footnote. Amounts delinquent 30 days or less are not shown.

Comments on Specific Items

INTEREST DUE AND PAID — This is the cumulative amount of interest paid to REA that has become due. Amounts delinquent more than 30 days are shown by footnote. Amounts delinquent 30 days or less are not shown.

LOAN ESTIMATE ROUTE MILES - ACTUAL ROUTE MILES — The loan estimate route miles of line represents the miles of line built or to be built as a result of loans made. Actual route miles are those actually built and in service by the borrower at the end of the year.

LOAN ESTIMATE SUBSCRIBERS - ACTUAL SUB-SCRIBERS — Loan estimate subscribers represents the number of subscribers served or to be served as a result of loans made. Actual subscribers are those being served by the borrower at the end of the year. MANUAL FACILITIES — Most reporting borrowers operate dial central offices. For those borrowers reporting manual facilities, data on the number of telephones and subscribers served by manual central offices are shown by footnote.

TELEPHONE PLANT — The original cost of telephone plant held for future use, which is included in total telephone plant, is footnoted for those few borrowers having this account.

SUBSCRIBERS PER ROUTE MILE — This is the number of subscribers served at the end of the year divided by the route miles of line in service at the end of the year.

SUBSCRIBERS - TELEPHONES — Telephones include extensions but exclude PBX, PABX and Key Systems. Subscribers exclude extensions but include PBX, PABX and Key Systems.

NUMBER OF EMPLOYEES — This is the combined total of plant and other employees at the end of the year.

OTHER SUBSCRIBERS — This consists of PBX, PABX, and Key Systems.

ROUTE MILES — Route miles refers to the actual measurement of facilities, either aerial, underground or by microwave path, or a combination of facilities, as routed between two points.

OFFICIAL TELEPHONES — These include all non-revenue producing stations installed in company offices, corporate officer or employee use, town or community phones on a no-charge basis and includes company-use radiotelephones.

WIRE MILES — Wire miles refers to the actual measurement of single wires as they are routed between two points.

SERVICE STATIONS (SWITCHERS) — These are subscribers of other companies switched by the borrower. Subscribers of the borrower receiving switcher service by another company are included under the appropriate type of service.

FACILITY OR SHEATH MILES — These refer to the actual measurement of individual facilities as routed between two points, several of which may occupy the same routing.

NUMBER OF SUBSCRIBERS - INITIAL SUB SCRIBERS — Initial subscribers represent those subscribers receiving telephone service for the first time as a result of the REA Rural Telephone Program. Number of Subscribers are all subscribers receiving telephone service at the end of the year.

PER SUBSCRIBER STATISTICS — Operating Revenues, Operating Deductions, and Net Income or Margin per subscriber are based on the average number of subscribers served by the borrower during the year.

AVERAGE NUMBER OF DAILY LOCAL CALLS PER SUBSCRIBER — This is the average number of local telephone calls completed daily per subscriber based on the average number of subscribers served by the borrower during the year.

AVERAGE NUMBER OF DAILY TOLL CALLS PER SUBSCRIBER — This is the average number of sent-paid and received-collect toll telephone calls completed daily per subscriber based on the average number of subscribers served during the year.

LOANS AND ADVANCES

Loans totaled \$128,558,000 for the calendar year 1968 which brought the cumulative net loans to \$1,566,132,744 as of December 31, 1968. Included in the cumulative net loans is \$9,479,189 loaned to the 18 former borrowers which has been repaid in full. The loans are being used to construct or rebuild an estimated 550,861 route miles of line and other plant facilities. An estimated 2,317,364 subscribers are, or will be, receiving initial or improved service through the use of these funds. Initial loans were made to 10 new borrowers during the year.

Of the total funds required (Table 1), construction

of new facilities and system improvements accounted for 93.2 percent. Refinancing of outstanding indebtedness and acquisition of telephone properties represented 2.6 and 3.7 percent, respectively. The remaining 0.5 percent went for systems operations and other loan purposes.

Funds advanced during 1968 amounted to \$104,199,173 compared with \$104,791,436 during 1967. Advances to all borrowers since the inception of the REA telephone program through December 31, 1968, amounted to \$1,297,543,551.

PRINCIPAL AND INTEREST PAYMENTS

As of December 31, 1968, borrowers had paid \$334,606,992 on principal and interest. The balance of payments made in advance of due dates amounted to \$21,997,730 for 488 borrowers as of December 31, 1968, compared with \$14,634,213 for 355 borrowers at the end of 1967.

The status of payments by cooperative and commercial company borrowers of principal and interest as of December 31, 1968, is presented in Table 1. Chart 1 illustrates graphically payments of principal and interest by REA borrowers from 1954 through 1968.

CHART I: PAYMENTS OF PRINCIPAL AND INTEREST ON REA LOANS

CUMULATIVE TOTALS-DEC. 31, 1954-DEC. 31, 1968

YEAR ENDING DECEMBER 31

BALANCE SHEET DATA

Table 2 presents year-end composite balance sheet data of telephone borrowers for 1968 and for four prior years. Table 3 presents these data for cooperative and commercial company borrowers separately for 1968. As of December 31, 1968, 811 borrowers reported \$1,463,418,784 in assets, or an average of \$1,804,462 per borrower, as compared to \$999,626,834, or an average of \$1,243,317 for 804 borrowers at the end of 1964.

The 229 reporting cooperative borrowers had loans approved by REA amounting to \$580,476,405 and funds advanced on those loans of \$474,587,080 as of December 31, 1968. Total telephone plant for these borrowers amounted to \$500,005,946. Loans and advances for the 582 reporting commercial company borrowers were \$969,927,150 and \$813,477,282 respectively, at the end of 1968 while total telephone plant amounted to \$1,139,130,577.

Telephone plant in service at the end of 1968 amounted to \$1,513,272,214 or an average of \$1,865,934 per borrower, an increase of 51.0 percent over the average borrower's plant in service of \$1,235,326 on December 31, 1964. The ratio of the depreciation reserve (excluding amortization reserves) to plant in service has shown a steady increase of approximately one percentage point per year for the past five years. On December 31, 1968, this ratio was 23.4 percent. The ratio of long-term debt to total assets was 77.8 percent at the end of 1968 as compared to 84.2 percent on December 31, 1964. Long-term debt reported by the 229 cooperative borrowers was \$395,905,184, of which \$395,594,259 was owed to REA as of December 31, 1968. Of the \$743,163,882 long-term debt reported by the 582 commercial company borrowers, \$706,594,394 was

owed to REA.

On December 31, 1968, 811 borrowers reported a total net worth of \$241,035,149 which represented 16.5 percent of their total assets. For 229 cooperative borrowers, the net worth was \$38,500,461 or 8.6 percent of total assets, and \$202,534,688 for 582 commercial company borrowers or 19.9 percent of total assets. The total amount of net worth as well as its ratio to total assets has increased steadily over the past five years as indicated in Table 2. The composite net worth ratio is influenced by the growth of individual borrowers as well as increase in the number of borrowers reporting. General funds reported by 811 borrowers amounted to \$76,562,480 as of December 31, 1968, which was 4.7 percent of total telephone plant.

REVENUES AND EXPENSES

Table 4 shows composite revenues and expenses and Table 4-A shows revenue and expense ratios of reporting borrowers for 1968 and 4 prior years. Table 5 presents these data for cooperative and commercial company borrowers separately for 1968. Total operating revenues increased from \$168,500,427 for the 804 reporting borrowers in 1964 to \$271,696,949 for 811 borrowers in 1968.

Local service revenues in 1968 totaled \$150,178,038 and net revenues for toll service

amounted to \$111,952,413. This represented 55.3 and 41.2 percent, respectively, of the total operating revenues for 1968. Total operating deductions as a percentage of total operating revenues decreased from 1964 to 1968. In 1964 operating deductions were 81.1 percent of operating revenues and in 1968 this had decreased to 80.5 percent. During this same period, net income or margin as a percentage of total operating revenues has increased from 10.1 percent in 1964 to 12.2 percent in 1968.

Table 6 shows in dollars per subscriber (based on the average number of subscribers throughout the year) the medians and middle ranges for 17 revenue and expense items reported by borrowers for 1964 through 1968. These medians and middle ranges were computed independently for each item and, therefore, unlike the per subscriber averages found in Table 4-A, they do not necessarily add to totals or

subtotals.

The median is the middle value of a group of values when they are arranged according to magnitude. Thus, one-half the reporting borrowers had dollars per subscriber less than the median, and one-half had dollars per subscriber greater than the median for each revenue and expense item.

The middle range for each item represents the spread between the smallest and largest ratios of dollars per subscriber after eliminating the upper and lower 25 percent of the ratios. Thus, 50 percent of the reporting borrowers had ratios falling within the middle range for each item.

In 1964, 96 borrowers, or 12 percent of the 804

reporting, operated at a deficit, as compared to 76 or 9 percent of the 811 that reported in 1968. In line with this continued improvement in operations, the median dollars per subscriber for net income or margin increased from \$9.38 for the calendar year 1964 to \$13.76 in 1968. As shown in Table 6, the middle range for this ratio also improved.

SUBSCRIBERS AND CENTRAL OFFICES

As of December 31, 1968, 811 telephone borrowers were operating 4,517 central offices of which 4,503, or 99.7 percent, were dial and 14, or 0.3 percent, were manual. Practically all manual offices are scheduled for conversion to dial. On December 31, 1968, the 811 reporting borrowers had 2,561,495 telephones in operation, 34.8 percent more than the 1,899,904 reported by 804 borrowers as of December 31, 1964. At the end of 1968, service was being provided to 2,067,025 subscribers, of which 1,036,073 or 50.1 percent, were receiving telephone

service for the first time through REA loans. On December 31, 1964, the 804 reporting borrowers were serving 1,626,590 subscribers. Dial subscribers numbered 2,062,414 which was 99.8 percent of the total number of subscribers on December 31, 1968. As shown in Chart 3, a total of 1,779,643, or 86.3 percent of all dial subscribers at the end of 1968, had received dial service for the first time as a result of REA loans. During the year, telephone borrowers began serving an estimated 102,000 new subscribers.

CHART 3: SUBSCRIBERS SERVED BY REA BORROWERS AND NUMBER RECEIVING INITIAL SERVICE THROUGH REA FINANCING

AS OF DECEMBER 31, 1968

TYPE OF SERVICE

At the end of 1968, 811 borrowers reported 228,411 business subscribers receiving service, an increase of 21.8 percent over the 187,480 reported by 804 borrowers as of December 31, 1964. Residence subscribers increased 27.9 percent during the same period, from 1,436,454 to 1.836,632. The nercentage of 1-party service of total subscribers in service has increased from 23.4 percent at the end of 1964 to 32.9 percent as of December 31, 1968, while 8-party service declined from 45.9 percent to 30.2 percent over the same period, as is shown in Table 7. One hundred and two borrowers had 184 central offices providing only 1-party service as of December 31, 1968, out of 4,517 central offices operated by the 811 reporting borrowers. As of December 31 1968, there were 15 residential extensions, compared with 9 per hundred at the end of 1964. Business extensions per hundred business subscribers increased

- Subscribers receiving telephone service for the first time as a result of the REA Rural Telephone Program. Subscribers receiving dial telephone service for the first time as a result of the REA Rural Telephone
- Program. Includes subscribers who previously had manual service. Reported by the following number of borrowers: 1964-785; 1965-805; 1966-813; 1967-808; 1968-808. Total route miles of line, both aerial and buried, and including owned and joint use pole line, service drops, microwave paths, and company owned portion of switcher lines.

from 70 at the end of 1964 to 92 as of December 31, 1968. At the end of 1968, the 811 borrowers reported 13,389 employees for an average of 16.5 employees per borrower, as compared with the average of 13.8 in 1964. The growth in central offices, telephones, subscribers, employees and route miles of line from 1964 through 1968 is shown in Table 7. A breakdown of these data between cooperatives and commercial company borrowers for 1968 is shown in Table 8.

PLANT IN SERVICE

Tables 9 and 9-A present an analysis of telephone plant in service on December 31, for the years 1964 through 1968. For 1968, central office equipment accounted for the largest percentage, 22.6 percent, of telephone plant dollar amount. Buried cable and wire were 14.9 percent, while pole lines and aerial cable

were 13.3 and 12.4 percent, respectively. This is presented in Chart 7. Dollars per subscriber shown in Table 9-A were based on the actual number of subscribers reported by the borrowers at the end of the year. Data on selected plant in service items are shown in Table 10.

Total route miles of line, both aerial and buried, and including owned and joint use pole lines, service drops, microwave paths and company owned portion of switcher lines.

and company owned portion of Switcher lines.

Designed to accommodate 100 or more lines or which can be normally expanded to 100 or more lines.

Reported by 328 borrowers serving 837,683 average subscribers during 1968, 309 borrowers serving 803,884 average subscribers during 1967, 313 borrowers serving 752,117 average subscribers during 1966, 323 borrowers serving 721,886 average subscribers during 1965, and by 292 borrowers serving 617,393 average subscribers during 1964.

Reported by 593 borrowers serving 1,446,650 average subscribers during 1968, 597 borrowers serving 1,436,462 average subscribers during 1967, 597 borrowers serving 1,370,085 average subscribers during 1966, 601 borrowers serving 1,275,844 average subscribers during 1965, and by 559 borrowers serving 1,180,150 average subscribers during 1964.

Tables 11 and 12 show classification of reporting borrowers by size of system in operation as of the end of 1968 in terms of route miles of line and subscribers. Data are shown separately for cooperative and commercial company borrowers. The average

borrower had 660 route miles and 2,549 subscribers as of December 31, 1968, compared with 550 miles and 2,023 subscribers at the end of 1964, an increase of 20.0 percent in route miles and 26.0 percent in subscribers for the 4 year period.

SELECTED RATIOS

Selected ratios of borrowers for 1968 and the four prior years are presented in Table 13. In this table "investment" is synonymous with total telephone plant, which includes plant in service, plant under construction, property held for future use, plant acquisition adjustment, and plant adjustment. In arriving at the dollars per subscriber ratios for balance sheet items, the total year-end number of subscribers

was used; for percents based on plant in service, the average plant in service during the calendar year was used, and for percents based on operating revenues, the total operating revenues was used. The operating ratio is a gauge of operating efficiency, and as can be seen from Table 13, it has improved between 1964 and 1968, decreasing from 90.6 percent in 1964 to 88.7 percent in 1968.

State figures are data for REA borrowers headquartered in the state even where borrowers
operate in more than one state.
 Includes data for loan repaid borrowers.

Because of the omission of cents for individual borrowers, totals shown in this table may not be identical to the sum of figures shown in the body of this report.

1. State figures are data for REA borrowers headquartered in the state even where 2 borrowers operate in more than one state.

2. Designed to accommodate 100 or more lines or which can be normally expanded to 100 or more lines.

3. Reported by 328 borrowers serving 837,683 average subscribers.
4. Reported by 593 borrowers serving 1,446,650 average subscribers.

State figures are data for REA borrowers headquartered in the state even where borrowers operate in more than one state.
 No statisties are presented for states that have no loans or less than five borrowers in the state reported.

State figures are data for REA borrowers headquartered in the state even where borrowers operate in more than one state.
 No statistics are presented for states that have no loans or less than five borrowers in the state reported.

CR indicates a "red" figure.
